The Task Force for Global Health, based in Atlanta and founded 40 years ago to advance health equity, works with partners in more than 150 countries to eliminate diseases, ensure access to vaccines and essential medicines, and strengthen health systems to protect populations so that people can achieve their full potential.

**Eliminate Diseases**
- Polio
  - Polio eradication surge capacity
  - Polio antivirals initiative
- Viral Hepatitis
- Neglected Tropical Diseases (NTDs):
  - Intestinal Worms
  - Leprosy
  - Lymphatic Filariasis
  - River Blindness
  - Schistosomiasis
  - Trachoma
- Facilitate operational research on NTDs

**Ensure Access to Vaccines**
- Support low- and middle-income countries with COVID-19 vaccine deployment
- Build immunization capacity for future respiratory pandemics and epidemics
- Strengthen low- and middle-income countries’ early warning disease surveillance systems
- Advance the science of vaccine safety
- Equip families to make informed decisions about immunizations

**Strengthen Health Systems**
- Train and support field epidemiologists worldwide for disease surveillance and outbreak response
- Equip health agencies to effectively use data to improve public health
- Lead cross-sector alliance improving access to quality donated medical products
- Lead partnership for collaboration on large-scale health campaigns
- Build awareness, evidence and capacity for public health compassion and ethics

Our Reach

150+ Countries

Our Partners

- Ministries of Health
- National Public Health Institutions
- World Health Organization
- Centers for Disease Control & Prevention
- U.S. Agency for International Development
- Private sector partners
- Government partners
- Foundations
- NGOs
- Civil society organizations

Our Impact

In the 40 years since The Task Force was founded, child mortality has dropped by 60 percent (since 1990), polio has been reduced by 99% (since 1988) and 50 countries have eliminated at least one NTD. Among the ways The Task Force has contributed:

- 4 billion treatments for river blindness & lymphatic filariasis, reaching 300 million people in affected areas annually
- 4 BILLION for 300 MILLION People
- As a formal partner of the World Health Organization and the United Nations, through our non-State actor agreement, The Task Force engages in global negotiations to improve pandemic response and preparedness and advocate for strong public health systems
- 14,000+ Field Epidemiologists Trained in 100+ countries
- Recipient of the Hilton Humanitarian Prize for nonprofits that have made extraordinary contributions
- 200+ MILLION People
- Treated for blinding trachoma

Fiscal Year 2023 Financials

- Revenue $95.1 M
  - Program Support: 84%
  - Indirect Cost: 14%
  - Other Income: 2%
  *Excluding in-kind contributions
- Expenses $93.9 M
  - Program Expense: 88%
  - Administration & Fundraising Expense: 12%
  *Excluding in-kind contributions

In-kind contributions are donations of medicine to prevent and treat diseases such as trachoma, lymphatic filariasis and onchocerciasis.
