The Task Force for Global Health, based in Atlanta and founded 40 years ago to advance health equity, works with partners in more than 150 countries to eliminate diseases, ensure access to vaccines and essential medicines, and strengthen health systems to protect populations so that people can achieve their full potential.

**Eliminate Diseases**
- Polio
  - Polio eradication surge capacity
  - Polio antivirals initiative
- Viral Hepatitis
- Neglected Tropical Diseases (NTDs):
  - Intestinal Worms
  - Leprosy
  - Lymphatic Filariasis
  - River Blindness
  - Schistosomiasis
  - Trachoma
  - Facilitate operational research on NTDs

**Ensure Access to Vaccines**
- Support low- and middle-income countries with COVID-19 vaccine deployment
- Build immunization capacity for future respiratory pandemics and epidemics
- Strengthen low- and middle-income countries' early warning disease surveillance systems
- Advance the science of vaccine safety
- Equip families to make informed decisions about immunizations

**Strengthen Health Systems**
- Train and support field epidemiologists worldwide for disease surveillance and outbreak response
- Equip health agencies to effectively use data to improve public health
- Lead cross-sector alliance improving access to quality donated medical products
- Lead partnership for collaboration on large-scale health campaigns
- Build awareness, evidence and capacity for public health compassion and ethics

**Our Reach**
150+ Countries

**Our Partners**
- Ministries of Health
- National Public Health Institutions
- World Health Organization
- Centers for Disease Control & Prevention
- U.S. Agency for International Development
- Private sector partners
- Government partners
- Foundations
- NGOs
- Civil society organizations

**Our Impact**
- Polio eradication
- Barriers to care
-玲珑盲人
-玲珑盲人
-玲珑盲人
-玲珑盲人

**Fiscal Year 2023 Financials**

- **Revenue**: $95.1 M
  - *Excluding in-kind contributions*
- **Expenses**: $93.9 M
  - *Excluding in-kind contributions*

- **Program Support**: 84%
- **Indirect Cost**: 14%
- **Other Income**: 2%

- **In-kind contributions** are donations of medicine to prevent and treat diseases such as trachoma, lymphatic filariasis and onchocerciasis.

**Support low-income countries with COVID-19 vaccine deployment**

**Build immunization capacity for future respiratory pandemics and epidemics**

**Strengthen low-income countries’ early warning disease surveillance systems**

**Advance the science of vaccine safety**

**Equip families to make informed decisions about immunizations**

**Lead cross-sector alliance improving access to quality donated medical products**

**Lead partnership for collaboration on large-scale health campaigns**
